## Authors and Contributors

**The material in this manual was derived from a number of different sources. Throughout it has been made as compatible as possible with published advice from the World Health Organisation. The following were major sources of the material:**

Initiative for maternal mortality programme assessment. IMMPACT [www.who.int/reproductive-health/impac/](http://www.who.int/reproductive-health/impac/)

The International Federation of Infection Control [www.ifac.narod.ru](http://www.ifac.narod.ru)

Primary Mothercare Ed. Maurice King

The Resuscitation Council (UK) and Richmond S (ed). Resuscitation at birth. The Newborn Life Support (NLS) Provider Course Manual The Resuscitation Council (UK) 2001 London.

CD Rom of APLS (emergency care of babies and children). The CD Rom includes 120 videos and more than 400 X-rays and other clinical pictures. Published BMJ Books April 2003.

CD Rom of obstetric and neonatal emergency care (still under preparation)

International Child Health Care: a practical manual for the hospital care of children worldwide. Published BMJ Books November 2001.

Pocket Emergency Paediatric Care - A Practical Guide to the Diagnosis and Management of Paediatric Emergencies in hospitals and other healthcare facilities worldwide. British Medical Journal Books. 2003

A manual for the control of pain in children. Royal College of Paediatrics and Child Health UK 1990

Advanced Paediatric Life Support: The Practical Approach, BMJ Books.

Managing Obstetric Emergencies & Trauma: The Practical Approach, RCOG Publications

A Pocket Guide to Teaching, BMJ Books

Cardiopulmonary resuscitation. Irfan Mirza

### Editors:

Dr Barbara Phillips, Consultant in Paediatric Accident and Emergency Medicine

Dr Alison Gammon, Consultant in Accident and Emergency Medicine

Dr Kate Grady, Consultant Anaesthetist

Dr Assad Hafeez, Consultant Paediatrician and epidemiologist, WHO Pakistan

Dr Edmund Hey, Consultant Paediatrician

Ms Sara Paterson-Brown, Consultant Obstetrician and Gynaecologist

Mrs Angela Railton, Consultant Obstetrician and Gynaecologist with a Special interest in Perinatal Medicine

Dr David Southall, Consultant Paediatrician and Honorary Medical Director, Child Advocacy International

Dr Diane Watson, Consultant Anaesthetist

### Major Contributors -the editors plus the following:

Dr Sara Baxter, Consultant Anaesthetist

Dr James Bunn, Consultant Paediatrician and Senior Lecturer in International Child Health

Dr Christine Edwards, Consultant Obstetrician and Gynaecologist

Dr Jennifer Gonde, Consultant Paediatrician

Dr Mumtaz Hassan, Professor of Paediatrics

Mr Kim Hinshaw, Consultant Obstetrician and Gynaecologist

Dr Ghazala Mahmud, Consultant Obstetrician and Gynaecologist

Dr Irfan Mirza, Consultant Paediatric Surgeon

Professor Elizabeth Molyneux, Consultant Paediatrician

Ms Sara Paterson-Brown, Consultant Obstetrician and Gynaecologist

Dr Fidelma O'Mahoney, Consultant Obstetrician and Gynaecologist

Dr Mark Pietroni, Consultant Physician

Dr Sam Richmond, Consultant Neonatologist

Dr Shamsa Zafar, Consultant Obstetrician and Gynaecologist

Dr Abiola Sulaimon, Paediatrician

**In the manual reference to the corresponding sections of 4 WHO publications are included. These are:**

1. Surgical Care at the District Hospital. WHO 2003 and the Integrated Management for Emergency and essential Surgical Care (IMEESC) Tool. Department of Essential Health Technologies, World Health Organization, 20 Avenue Appia, 1211, Geneva 27, Switzerland Fax: 41 22 791 4836 Internet: [www.who.int/surgery](http://www.who.int/surgery)

**Labelled in blue and with prefix "IMEESC"**

2. Integrated Management of Pregnancy and Childbirth. Managing Newborn Problems: a guide for doctors, nurses and midwives. WHO 2003 ISBN 92 4 154622 0

**Labelled in pink with prefix "WHO Newborn"**

3. Integrated Management of Pregnancy and Childbirth. Managing Complications in Pregnancy and Childbirth: a guide for midwives and doctors. WHO 2005 ISBN 92 4 154587 9 **Labelled in red with prefix "WHO pregnancy"**

## Contents

SECTION	TITLE
1	Infection Prevention
2	Principles of Managing Emergencies In The Mother And Child: assessment and triage
3	Drug And Fluid Administration Blood transfusion
4	Pain Management and Sedation Anaesthetic issues (including spinal and ketamine)
5	Transport of Ill Patients
6	Basic Life Support Introduction Basic Life Support Child Basic Life Support mother Safe approach Are you alright Airway opening actions Breathing actions Circulation actions Basic Life Support at different ages Calling emergency services Cardiopulmonary resuscitation in pregnancy  Choking
7	Advanced Life Support Introduction Airway equipment and skills Breathing equipment and skills Circulation equipment and skills Cardiac arrest
8	The structured approach to the seriously ill or injured mothers, babies and children Primary Assessment and resuscitation during emergencies <b>Airway and Breathing</b> Effort of breathing: Respiratory rate/rhythm: Stridor/wheeze: Auscultation: Skin colour <b>Circulation</b> Heart rate: Pulse volume: Capillary refill: Skin temperature Cardiac failure <b>Disability</b> Mental status/conscious level: Posture: Pupils: Blood glucose  Secondary assessment and emergency treatment <b>Airway and breathing</b> <b>Circulation</b> <b>Disability</b> <b>Exposure</b>  <b>Summary</b>
9	Management of Emergencies in the Pregnant Mother Airway and Breathing problems: <ul style="list-style-type: none"> <li>o Asthma</li> <li>o Lower respiratory tract infection</li> <li>o Heart failure</li> </ul>
